GREASE DIRECTOR'S NOTES

Thank you for joining us for SPA's production of *Grease!*

Grease, the iconic musical first staged in 1971, has evolved through revisions to remain relevant and engaging across generations. Originally depicting the gritty realities of 1950s teenage life, subsequent revisions have softened its edges to appeal to broader family audiences, balancing its nostalgic portrayal of high school romance with contemporary sensibilities. Despite these alterations, *Grease* retains its infectious energy and timeless appeal, bolstered by its beloved soundtrack featuring unforgettable hits like "Summer Nights," "Greased Lightning," and "You're the One That I Want." This enduring adaptation showcases its ability to capture the universal themes of youthful love and self-discovery while staying true to its roots in American pop culture.

We are extremely proud of all the students involved in this production. Some are veteran performers and others are in their very first show, but all of them have chosen to be involved in something positive during the summer. They've allowed themselves to be vulnerable by presenting something for a live audience, which requires courage and confidence. They're a very fun group, and we're extremely proud of each of them and their growth.

Thank you so much for choosing to attend this performance. The cast, crew, and staff hope you enjoy SPA's production of *Grease!*
 Rich McFarlane, Director
